SUMMARY

Full Stack Developer skilled in React, TypeScript, Node.js, and MongoDB, with experience building web applications and creating content for full-stack learning programs, including projects and LMS integration for a smooth user experience.

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript, Basic Python, Basic Java
- Web: React.js, Node.js, Express.js, HTML5, CSS3, Tailwind CSS
- Databases: MongoDB, MySQL
- Tools: Git, GitHub, Docker, Postman, VS Code, Linux, Figma
- Other: REST APIs, JWT, Zod, AWS basics

EXPERIENCE

Associate - Physics Wallah, Oct 2023 - Present

- Built responsive full-stack web applications and contributed to the development of a practical, project-based curriculum for aspiring developers.
- Created high-quality instructional content, including quizzes, slide decks, and assessments aligned with learning goals.
- Developed and reviewed coding projects, assignments, and learning materials to ensure technical accuracy and clarity.
- Integrated Sphere Engine into the LMS, improving the hands-on coding experience and boosting course completion rates.
- Automated internal workflows using Google Apps Script and Sheets, reducing manual effort and improving operational efficiency.
- Led LMS project setup and testing, ensuring smooth deployment and functionality of hands-on coding tasks.

INeuron.ai, Associate, Feb 2023 - Oct 2023

- Developed a MERN stack (MongoDB, Express, React, Node.js) curriculum featuring hands-on projects to boost learner engagement and practical skills.
- Provided guidance and support to learners in understanding and applying web development concepts.
- Created and maintained technical documentation and learning materials to support self-paced practice and concept reinforcement.

EDUCATION

- Manipur University Bachelor of Engineering • Computer Science • 2017 - 2021
- Rayburn College 12 Standard • 2016 - 2017

CERTIFICATIONS

- Full Stack Javascript Web Developer, Ineuron.ai, Issued Feb 2023
- Java Application Development - J2SE, Cognitive Creators, Issued Jul 2019
- The Complete Full-Stack Web Development Bootcamp, Udemy, Issued Jul 2020
- 0 to 100 Full Stack Web development Course, 100xdevs, Issued July 2025
